# THE DETAILS MATTER.

## ▲ COMPANY.

At Apex Plastics, we manufacture a large assortment of blow-molded bottles, containers, and canisters in sizes ranging from 2 oz. - 128 oz. bottle capacity. Our production equipment features fully programmable controls and innovative material handling techniques to ensure repeatable processing and high-quality output for HDPE, LDPE, PP and CPP materials.

## ▲ WHY CHOOSE APEX PLASTICS?

With years of experience, a state-of-the-art facility, and the latest machine technologies, our team of experts are here to ensure your path to success. You're sure to feel confident in our pricing, quality, reputation, logistics, and convenience.

## ▲ INVOLVED FOR THE DURATION.

Finding the right company for your product manufacturing takes time and is an important investment. At Apex Plastics, you'll feel secure having us be your guide from start to finish, making sure your products and/or services meet your requirements, as well as the needs of your valuable customers.
